People who have dogs which are not licensed should attend to the matter at once, unless they desire to lose the dogs and pay a fine. A remnant of the old road that used to run through the woods from Elliotts Hill to Greenville is found in the name of a large brook that runs into Wilson street and flows down the county road as Collier's Brook. Such an old name to describe a locality deep in the Maine woods is a curiosity. It appears that the old road once covered the whole of the city and that place was a public house. It was the custom in those days for Maine farmers to furnish liquor to guests and perhaps that they do now but it is not known. There is nothing to drink except coffee, of which there is plenty. It is thus becoming widely known among the woodmen and lumbermen as the Collier's Brook. Not a timber remains of the old tavern, the road can be traced through the woods but the brook runs on forever to the river by this time.
